

# PRISON AFTERCARE 1.0

## *Making a Difference Post-Release*

Whether you are supporting a loved one specifically, or men and women in general, understanding a person's needs post-release is critical to knowing how to help.

NBF Aftercare has been supporting men post-release for 13 years, and we want to help equip the Body of Christ to do the same. Incarceration is nearly an epidemic in our society. One way to combat this problem is to help men and women never return to jail. Aftercare makes a difference.

Please, join us on October 7th for Prison Aftercare 1.0. This seminar will begin your education in prison aftercare. **This is a FREE seminar.**
